

Subject: MITS Web Portal Billing Instructions

Release Date: January 5, 2012

ATTENTION PROVIDER ASSOCIATIONS AND PARTNERS:

The MITS Web Portal billing instructions for professional, dental, and institutional claims have been updated.

Providers can no longer report the Allowed Amount on claims that are adjudicated first by Medicare or another third party (such as a commercial insurance company). MITS now calculates the Allowed Amount directly from amounts reported with Adjustment Reason Codes (ARCs) and CAS Group Codes (such as PR or CO).

See the 'Billing Instructions' manual within the 'Ohio Health Plans - Provider' collection on the eManuals website, <http://emanuals.odjfs.state.oh.us/emanuals/>.
