

**Public Notice Summary: SELF Waiver
SELF Waiver Amendment
Conversion from a 209(b) State to a Section 1634 State**

Introduction

As a result of the new single disability determination process for Medicaid and SSI, Ohio is seeking a Medicaid state plan amendment to adopt criteria authorized in section 1634 of the Social Security Act. The income standard will be raised from 64 percent of the federal poverty level (FPL) to 75 percent FPL, the resource limits will be raised from \$1,500 to \$2,000, people on SSI will automatically become eligible for Medicaid and the spend down process will be eliminated.

The SELF Waiver application must be amended to reflect the State's conversion to section 1634, and it must identify the Medicaid eligibility groups included under section 1634, and include a plan for continued access to services for individuals who have income over the eligibility threshold but otherwise meet the requirements for Medicaid.
